

COMBINED BioReActor

COBRA™

CONVENTIONAL

COBRA™

COBRA™ ADVANTAGES OVER TRADITIONAL TECHNOLOGIES

- ✓ SMALLER FOOTPRINT
- ✓ HIGHER QUALITY EFFLUENT
- ✓ LOWER POWER CONSUMPTION
- ✓ ACCOMMODATES VARIABLE HYDRAULIC AND ORGANIC LOADS
- ✓ EASE OF OPERATIONS
- ✓ COST-EFFECTIVE AND PROGRAMMED EXPANSION
- ✓ CONSERVATIVE DESIGN PARAMETERS

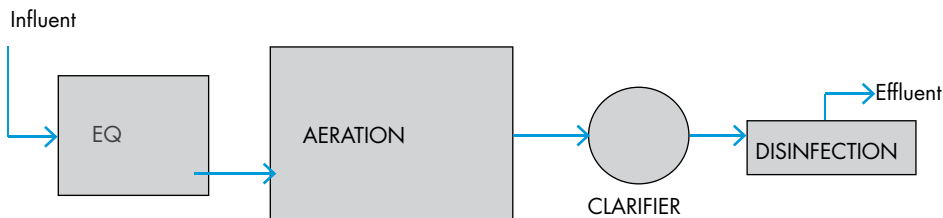

State of The Art Membrane BioReactor - MBR

BluMetric Environmental Inc. is a multidisciplinary wastewater equipment manufacturing company with offices throughout North America. Our Water Division focuses on Design-Build Industrial wastewater treatment systems. We have a broad client base and a wide range of industrial experience.

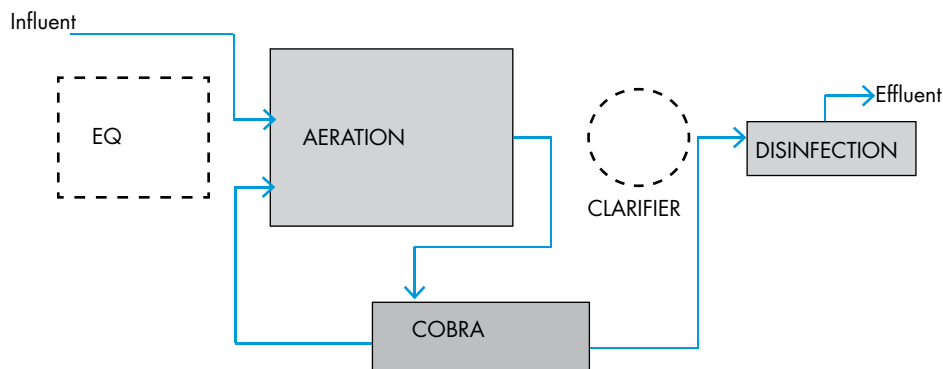

BluMetric's technology partner, **LG**, is a global leader in membrane manufacturing and production. LG manufactures the most advanced membranes in the industry. LG membranes have superior integrity, permeability and design flexibility as well as reduced operating and maintenance costs.

THE COBRA™ RETROFIT AND EXPANSION PACKAGE

EXISTING STANDARD PLANT

COBRA™ PLANT

The **COBRA™** retrofit and Expansion package can rapidly and economically accomplish the following:

- INCREASE DAILY FLOW BY AS MUCH AS 3X
- IMPROVE EFFLUENT QUALITY
- SIMPLIFY OPERATIONS
- MEET NEW EFFLUENT LIMITS
- IMPROVE CASH FLOW WITH A LEASE OPTION
- PROVIDE ADDITIONAL PRODUCTION SPACE
